

## NEW CONTROLS SUN / WIND

- The sun / wind thresholds are set entirely by remote control or button without having to reach the automation;
- Possibility of associating up to 2 awnings, as well as an unlimited number of motors with the RX model;
  - With the RX anemometer all settings are recorded directly in the motor memory;
  - Opportunity to customize the thresholds for each individual awning even if controlled by the same anemometer;
    - Degree of protection IP 45.
